

## Fact Sheet

# LICENSING

Powercore's Software Licensing service is designed to remove all the configuration, licensing model and license renewal headaches from our customers.

We have acquired wide experience in this field working in the new and second user system market. This knowledge is backed up by an excellent network of industry contacts which means that Powercore provides a comprehensive licensing service based on technical expertise and practical experience.

- |             |   |
|-------------|---|
| Features    | <ul style="list-style-type: none"><li>■ Exceptional experience and expertise.</li><li>■ Impartial advice.</li><li>■ License audits.</li></ul>                             |
| Delivery    | <ul style="list-style-type: none"><li>■ Single point of contact.</li><li>■ Either standalone or with a system.</li><li>■ License administration and management.</li></ul> |
| Platforms   | <ul style="list-style-type: none"><li>■ IBM.</li><li>■ Hewlett Packard.</li><li>■ Sun Microsystems.</li></ul>   |
| Technology  | <ul style="list-style-type: none"><li>■ All associated operating systems.</li></ul>   |
| Integration | <ul style="list-style-type: none"><li>■ Fully integrated with our New and Second user system sales.</li></ul>   |

Customers often invest large amounts of expensive time trying to configure and manage their licensing requirements. Powercore's licensing service aims to remove this overhead from the customer completely by offering a cradle to grave licensing solution.
