

## Fact Sheet

# RENTAL

For anyone who has a short term requirement for extra capacity, or who needs a certain model of machine but cannot justify the capital expenditure, renting may be the answer. If you are trying to fix a system with an intermittent problem, or just require parts for diagnostic purposes, again renting may be the answer.

Powercore offers a range of rental options on whole machines and components that are amongst the most flexible and cost effective in the market.

Our rentals are fully supported by Powercore's experienced and skilled personnel.

### Platforms
