

Fact Sheet

TRAINING

Powercore International is seeing a greater call for its IBM, Hewlett Packard and SUN training courses. Powercore's training programme includes both hardware and software subjects.

All our courses are conducted by fully qualified and highly experienced engineers who have a combination of classroom and workshop resources available to them and their students. A positive learning environment promotes effective "hands on" involvement by the delegates.

Training can be carried out on a one-to-one basis, or in small groups. We are equally capable of delivering training onsite - anywhere in Europe.

Manufacturers

- IBM.
- Hewlett Packard.
- Sun Microsystems

Subject Matter

- Hardware system architectures.
- Hardware configuration, testing and problem diagnosis.
- System tuning.
- Operating systems and environments.

Trainers

- Fully qualified and highly experienced engineering staff.

Learning Environment

- At Powercore Bedfont we have dedicated learning laboratories and workshops.
- Training can also be delivered at customer locations.

Backup

Following graduation, every delegate will qualify for 90 days free telephone access to their trainer to have questions answered and advice given.
